III. OTHER INFORMATION

1. Reasons for inadequate profits:

Since past three years, the macro-economic environment is facing a severe slow growth trend. It has further deteriorated in this year and has a severe effect on the construction & infrastructure sector, causing distress to almost all the players. Policy indecisiveness, scarce financial resources, inflationary pressures, project delays due to unexpected developments, bureaucratic hurdles and other similar factors continued to create innumerable difficulties to both, the sector and the Company. The infrastructure segment continued to be sluggish due to policy inaction and liquidity constraints.

The Company continues to face difficulties in realising receivables/ retention and arbitration claims. The Company continued to be affected due to poor planning and implementation of projects and unavailability of resources on timely basis, thereby widening the gap between the planned outlay and actual spending.

The severe liquidity crisis continued to adversely affect project execution. Certain delays are beyond our control such as delays in land acquisition, municipal permission, approval of design by client, and over and above scarcity in availability of labour and materials and operational issues continued to drag down the performance and project profitability. The Company is under Corporate Debt Restructuring & hence interest & finance cost continued to be high.

The Company's overseas operations are characterised due to weak order booking, inflexible labour markets, paucity of working capital and uncertain political climate. Continuation of recession in the European economy, and weak Euro position against the USD has frazzled the investment of the Group.

2. Steps taken or proposed to be taken for improvement:

The Company has with assistance from its CDR lenders initiated several steps for improving its performance. As a step towards this the banks have released fresh funds within the overall facilities sanctioned under the CDR Package. These funds have been infused directly into projects which had been stuck up for lack of funds. Steps have been initiated to complete these projects on a fast track basis so as to reduce fixed costs and to ease working capital costs. During the period under review several projects have been completed and sites closed thereby reducing operational costs. This has also helped in recovering retention monies.

The Company is also concentrating on recovering all long pending dues and receivables and a dedicated team has been set up whose main target is to recover receivables, arbitration awards, final bills and retention money and though the recovery is slow, nevertheless this is also helping the company in meeting its working capital needs. The Company has won many arbitration awards and steps have been taken to recover the amounts due from such awards. The Company is also in the process of monetizing its investment in land as well as of its overseas assets and to divest its non-core business, disposal of idle equipment, settlement of non-routine collection including claims and arbitration awards. Also several steps have been taken to reduce operational costs so as to reduce the burden on working capital requirements. The Company is currently concentrating on selective acquisition of value-accretive project orders and concentrating on its core competency business of construction of bridges, water supply, metro rail projects and hydro power. All these steps are aimed at improving the performance and reducing the high debt burden.

3. Expected increase in productivity and profits in measurable terms:

In spite of various challenges, the Company could secure new orders worth ₹ 2100 Crore during the

nine months period ended 30th September 2014. With the continued assistance from the lenders, the Company is also taking efforts to streamline its cash management so that it is in a better position to complete the existing projects on time. The Company is also aggressively pursuing divestment of its non-core assets. With a new and progressive government at the Centre, the situation is likely to improve. With the Government's helping hand and positive attitude the Company is looking forward to a phased economic revival and boosting of business confidence due to hard policy decisions. The Company is also hoping that the government will come up with a clear cut road-map for implementing the policies.

MIPL, additionally, had also raised debt through issue of privately placed Non-Convertible Debentures duly secured by a first charge on the land and also a collateral security in the form of a Corporate Guarantee given by the Company. The Company charges an interest rate of 9% pa on the loans advanced. The said land, situated under the Kalyan Dombivli belt, is expected to fetch high market value considering the development currently taking place in the area. The loans and the corporate guarantee given, which is likely to continue beyond 31st March 2015, have been given with prior approval of the shareholders and in accordance with the relevant provisions of the erstwhile Companies Act, 1956.

Currently your Company has a stake of 73.8% in Campo Puma which has a 90% stake in Consortium Pegaso. The consortium is engaged in oil exploration and exploitation business in Ecuador, Puma Marginal oil Field. This field has been awarded to the consortium for a period of 20 (twenty) years by PetroEcuador on 27th March, 2008. The contract was originally started as a production sharing contract but sometime in 2011 was modified by the Government to a service contract for a fixed

service fee per barrel. CPO currently has 11 operational wells each having an average production of 950 barrels of oil. In order to fund its operations, CPO had availed loan of upto US\$ 51 Million from IDBI Bank, Dubai. The said loan was guaranteed by IDBI Bank Limited by issuing a stand by letter of credit which in turn was backed by the Company's corporate guarantee. As part of the agreement with the joint venture partner for carrying out oil exploration and development of wells, and for meeting expenses related thereto, the Company has from time to time advanced loans to CPO. The Company is exploring various options for divesting its stake in CPO which will help the Company to recover the loans given to CPO.
